

EMBRACE EARTH'S HERITAGE AND  
COME ALIVE TO THE BEAUTY THAT  
ECHOES IN THE ELEGANT FORMS  
OF ROCK CREATED THROUGH THE  
ART OF METAMORPHISM

The logo icon for Tinka is a stylized, circular emblem composed of several curved, overlapping lines that create a sense of motion and depth, resembling a modern, abstract representation of a stone or a leaf.

## METAMORPHISM

IS A GLORIOUS TRANSITION TAKING PLACE OVER MILLIONS OF YEARS AS A RESULT OF UNIMAGINABLE HEAT, PRESSURE AND A CHEMICAL CHANGE IN COMPOSITION

# THE KEY STONE

LIKE THE NAME OF MOHAMMED ABDULLAH SHAIKH, THE COMPANY JABAL AL TOOR HAS BEEN BUILT ON THE SOLID ROCK OF MARBLE INNOVATION.

For Mohammed Abdullah Shaikh, the story of success came in an unexpected form. Born into a humble farmer family in India, Mohammed Abdullah Shaikh never gave up seeking the best life for him and his family. His colossal dreams and an insatiable attitude marked his entry into the demanding marble industry and there was no turning back.

Moving to Italy in 1990, Mohammed Abdullah Shaikh was struck by the wonders of natural stone in the marble quarries of Carrara. Eventually, he established Jabal Al Toor in Sharjah in 2008, an offshoot of many marble businesses that he nurtures globally. Headquartered in Carrara, Italy, the company's global presence extends to Spain, India, China, Hong Kong and United Arab Emirates.
